

AI FOR SMALL BUSINESS

10 AI Automations that run your business while you sleep

The exact systems small businesses use to save 20+ hours a week and stop losing leads — with the tools to set each one up.

A free guide by AutoMate AI

@automate_ai1

1 Instant DM & comment auto-reply

An AI answers your most common customer questions 24/7 and books the appointment right in the chat.

Tool: ManyChat + AI

Saves ~3 hrs/day

2 Missed-call text-back

Every missed call instantly gets a friendly text so you never lose a lead to a competitor who picked up first.

Tool: Twilio / automation

Recovers ~20% of leads

3 Automatic review requests

After a happy customer, an automation asks for a Google review at the perfect moment. More reviews = more trust = more sales.

Tool: automation + SMS

More 5-star reviews

4 Lead qualification bot

A bot asks a few smart questions and scores leads, so you only spend time on people ready to buy.

Tool: AI form / chatbot

Only call hot leads

5 Content repurposing engine

One idea becomes posts, reels and emails automatically. Show up everywhere without a marketing team.

Tool: Claude + templates

10x your output

6 Appointment reminders

Automatic SMS/email reminders cut no-shows dramatically. Your calendar stays full.

Tool: automation + SMS

Fewer no-shows

7 AI inbox triage & drafts

AI sorts your inbox and drafts replies to common emails. You just review and send.

Tool: AI email assistant

Saves ~1 hr/day

8 Invoice follow-up

Unpaid invoices get chased automatically, politely, until they're paid. No awkward calls.

Tool: billing automation

Get paid faster

9 Support knowledge bot

An AI answers product/service questions from your own docs, so customers get instant help.

Tool: AI knowledge base

24/7 support

10 Weekly report on autopilot

Every Monday, your sales, traffic and bookings arrive as one clean summary. Decisions in 5 minutes.

Tool: dashboard automation

Clarity every week

AI FOR SMALL BUSINESS

Want these set up for you?

You just saw the systems. Setting them up right is where most businesses get stuck. That's what we do.

- We build these automations for your business, done-for-you.
- Start with one system, see the results, scale from there.
- No tech skills needed on your side.
